# LARGE FORMAT SIGNS

**COROPLAST** is a corrugated plastic sheet that is extremely durable because it is water and stain resistant. It is great for indoor or outdoor signs because it will not rust, rot, mildew or corrode like metal or wood will. Coroplast signs have a variety of purposes and are most often used for political signs, yard signs and real-estate signs. We can print directly onto its surface.

**E-PANEL** is comprised of two pre-painted sheets of 4mm aluminum with a solid polyethylene core. This is the best option for doing larger Billboard signs and will give you a very long term application at an affordable cost. We can print directly onto its surface.
